DETAILED ACTION

Claims 3-9 and 12-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species of the invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/25/05.

Applicant's election without traverse of the species of Figures 1-4 in the reply filed on 7/25/05 is acknowledged.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 10, 11, 16 and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Yoshihara et al. '162.

The pregnant publication to Yoshihara et al. discloses a user terminal 8a that is mobile and has I/O capabilities through the internet and wireless phones. The device can display a reservation screen that is regarded as at least one content providing area, and depending on geographic location and time information is displayed.

Claims 18 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
